A strong testament to Singapore as a cosmopolitan city with a strong national identity, our #MaskForTheNation design features the iconic Merlion dressed in the national colours of red and white with the crescent moon and five stars on our national flag. The leaves in the design speak of Singapore's commitment to biodiversity and the United Nations 2030 Agenda for Sustainable Development, and represents our City in a Garden vision, lush with parks, gardens and nature reserves. United as one against the COVID-19 pandemic, we will forge a brighter future together.
