Glad to join EST Co-Chairs Minister Desmond Lee and Mr Tan Chong Meng in an Emerging Stronger Conversation jointly organised by Ministry of Trade & Industry and REACHSingapore with Singaporeans from all walks of life. The participants shared the risks and opportunities that they observe in the Singapore economy amidst COVID-19 and how we might address them. They also reflected and brainstormed the specific actions steps that they themselves/their sector can take to help our Singapore economy emerge stronger.

The participants engaged in robust discussions and provided much valuable feedback. I was especially heartened to see that so many individuals wanted to contribute their ideas and take actionable steps going forward. I shared that every dark cloud has a silver lining. Despite the rough road ahead, there are highways of opportunities to new growth areas. We are not returning to a pre-COVID world and the only way through this crisis is for us to reassess how to react to the challenges, embark on industry transformation like digitalisation and think ahead by identifying fresh pockets of opportunities that businesses and workers can seize. I also shared with participants that businesses can now tap on GoBusiness Gov Assist, a one-stop portal that has been launched to aid SMEs in navigating the numerous support schemes available to help them adapt to the changed business environment.

There will be many more of such Conversations in the next few months. I encourage you to sign up for one of these sessions at <http://go.gov.sg/ESConversations> to contribute your views and ideas. Although this is an unprecedented crisis, Singaporeans have withstood many storms together before. We have the mettle to emerge stronger from COVID-19 and let's all do what we can to catch the upturn when it comes 🙌❤️🇸🇬

Emerging Stronger Conversation
