3E Accounting Pte Ltd – Accounting Firm & Corporate Services Provider in Singapore

Rose - April 5, 2022 24748

Since the last decade, **3E Accounting** has been well on its way to establishing itself as the gold standard for corporate services in Singapore. In addition to getting great reviews from our valuable clients, we have won multiple corporate awards, expanded to various countries, and even been featured in leading media houses and news channels in Asia.

Making Company Registration Simple

When 3E Accounting was established ten years ago, it was especially difficult for foreigners and beginners to start a company in Singapore. They needed to do everything by themselves from researching the market to gathering a team and registering the company and licences.

This meant business owners got minimal time to work on what matters the most- growing their company.

Hence, our primary goal was to make company registration and operations effortless, assisting our valuable clients to realize their full potential. And we believe that more or less, we've succeeded in this regard, having offered our services to more than 10,000 clients.

A Wide Range of Service Offerings

One of our primary goals is the highest level of convenience for our clients. For this, we have established ourselves as a one-stop corporate service provider and offer our expertise for various needs, including:

- Company Incorporation
- Accounting and Bookkeeping
- Taxation
- Virtual Office
- Corporate Secretarial
- Human Resources
- Legal Services
- Auditing
- Associate Business
- IT and Design
- Software Sale and Development
- And more.

We Hire the Best People

We are a team that has been inducted into the Approved Employer Program in Professional Development by the Association of Chartered Certified Accountants (ACCA). And this was way back in 2012- meaning that we have been keeping up with the global standards for the best accounting and corporate professionals for ten years.

To become consistent across all our services, we only hire the best candidates. We have a strict screening process and spend a lot of budget and time on our hiring process. All of our professionals are personally vetted and have been able to garner praises from our clients.

We Take Saving Time and Efforts to Another Level

When you hire different services from different companies, it becomes difficult to track everything.

First of all, choosing the right corporate service provider isn't easy. And even after deciding to work with one, you will need a lot of communication, emails, reviews, records, etc. This becomes time-consuming when you're dealing with many firms at once.

On the other hand, our team consistently offers reliable services across our various offerings. With us, you don't need to deal with a lot of people, still being able to get the highest quality of corporate assistance.

Best Prices for Service Quality

We've always believed that money won't be an issue as long as we render high-quality services. Furthermore, most of our clients are repeat customers or have been referred by our existing customers.

Our costs are affordable. We want our clients to have full flexibility while paying, so we've created many plans with which they can only pay for the services they take. Furthermore, we don't have any hidden prices.

Get in Touch With Us Today
